Final-year BSc IT student with hands-on industry experience as a Software Development Engineer Intern at AWS (Amazon Web Services), Cape Town. Proven ability to build and ship real-world software — from mobile apps to web platforms — beyond the classroom. Comfortable across the full stack and passionate about writing clean, scalable code.

WORK EXPERIENCE

Software Development Engineer Intern · [Amazon Web Services \(AWS\)](#) · [Cape Town](#)

Nov 2025 – Feb 2026

- ▶ Contributed to the AWS EC2 Console, improving customer visibility into resource usage and associated costs across instances, AMIs, and security groups.
- ▶ Built and shipped features within the EC2 Console that help customers better understand, manage, and optimise their cloud infrastructure and spending.
- ▶ Enhanced UX by surfacing clearer, more actionable insights into compute resources and cost-related information directly in the console.
- ▶ Collaborated in developing internal tooling and features supporting cost awareness and resource tracking for EC2 customers at scale.

Student Assistant · [North-West University](#)

2023 – Present
